Head 2 Head

For the smooth less using of the Head 2 Head, you have to be sure, that your firewall allows „PEER to PEER“ connections.

Also following ports have to be free:

Since Version V12.10 XP following rules have to be set:

- **UDP Port 9104 in and out**
- **UDP Port 9130 in and out – this port is also for the Peer to Peer connection!**
- **Localhost:9103 – tablive2.quazal.net:30245**
- **Localhost:9103 – tablive2.quazal.net:30246**
- **Localhost:9130 – tablive2.quazal.net:30245**
- **Localhost:9130 – tablive2.quazal.net:30246**

Please note:

Changes in the network settings have to be done from a network administrator. He also is able to inform you of some security risks.

Notes:
