## **Silverball local tournament with Jackpot function (p-Dongle)**

**TAB-Austria Industrie- und Unterhaltungselektronik GmbH & CoKG**

Haider Strasse 40, A-4052 Ansfelden

Tel.+43 (0)7229/78 040-0\*, Fax +43 (0)7229/78 660, e-mail: [sales@tab.at](mailto:sales@tab.at)

Hotline: +43 (0)7229/78 040-250, e-mail: [hotline@tab.at](mailto:hotline@tab.at)

## **The tournament**

With the jackpot function, the pot is growing up with the percentage which has been set. You can set different tournaments, also for the future!

1. Tournament → One2Seven / Beach Solitair from 01.04.2006 –  
08.04.2006
2. Tournament → Crazy Dice / Blocks from 11.04.2006 –  
15.04.2006
3. ...

You can set 2 different games or the same game twice.

## **The tournament main screen**

All useful information's for the gamers can be shown in the tournament screen. Pressing the "Tournament" button on the left side in the menu gets you into this screen. Following information's will be shown:

- Games → tournament games
- Tournament End's → date and time when the tournament ends
- High score - list → actual list of winners
- Points/Winnings → the amount/value what the payers get
- Start button → start a tournament game
- Price for 1 game → price for 1 game

## **Enter the high - scores**

If a player is under the TOP 3 with his score, then he have to give in a PIN code after the enter name screen. This PIN code is after the tournament responsible for the identification of the player!

## **List of ranking**

The jackpot gets:

1. Player 50%
2. Player 30%
3. Player 20%

## Ending the tournament

The prices can be given from the supervisor to the top 3 players. Pressing the Silverball LOGO will activate this function. Now the Supervisor has to put in his PIN code and then the player his PIN code. Now both are identified and the player can have the price.

## Local tournament settings in the Testmode

The screenshot shows a web-based interface for setting tournament parameters. It includes radio buttons for selecting the current, next, or next-but-one tournament, a 'Repeat' checkbox, and a 'set games / price' button. A summary section displays 'Tourn. end: Fr, 28. April 2006, 08:00 Clock', 'Duration: 1 Week(s)', 'Starting value: 2.-', and 'Increase: 30 %', with a 'Set' button. On the right, there is a 'Status' field and buttons for 'Start tournament', 'Apply', 'Help', and 'Back'. At the bottom left, there are buttons for 'Statistic' and 'Winners' list'.

- **Actual tournament:** Set the options game/price for the selected tournament
- **Next tournament:** Set the options game/price for the next tournament
- **next tournament. But one:** Set the options game/price for the over-next tournament
- **Repeat:** Repeats the tournament automatically

- **Set games/price:** Here you can set the game(s) and the price for the selected tournament

Tournament end

Day 28     Month April     Year 2006     Hour 08     Minute 00    +  
--

Tournament duration, price setting

Tournament duration: 1 Week(s)    +    -

Prize starting value: 2.-

Prize increase: 10 %

OK

- **End of tournament:** Shows the detailed end of the tournament
- **Duration of tournament:** Shows the complete duration of all the tournaments, after the 1<sup>st</sup> tournaments ends
- **Prize starting value:** Set the starting value of the jackpot!
- **Prize increase:** Shows the value of the starting jackpot. Also set the percentage here:  
Per example: **game price** = 4 credits; 1 credit = 10 Euro; percentage = **30%**. So the pot is growing 12 Euro (30% of 40 Euro) for **each started tournament game!**
- **Setup:** Here you can set the End of the tournament, duration and the price setting.
- **Status:** Shows if the selected tournament is running or ended.

- **Start tournament:** If you setted all options, you can start here the tournament
- **End tournament:** Ends the selected tournament
- **Winner list:** Here you can see and delete all the winners of the played tournaments. Also to use when a player has lost his PIN code!
- **Apply:** To accept your changes, press this button
