

## Mounting instruction for security-metal

For safety and for brake-in the Virtual Pinball please mount the security-metal as described as follow.

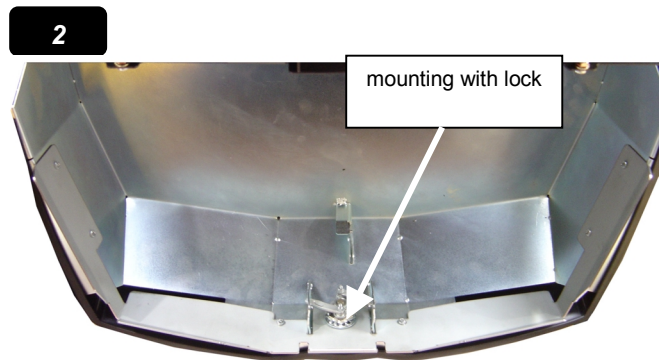

Be extreme careful by handling.

Partnumber: 675161026

Security-metal Virtual Pinball

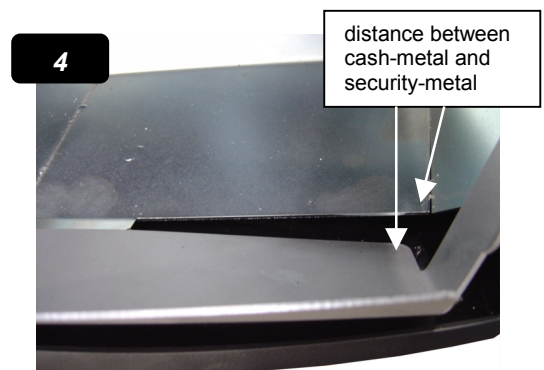

Security-metal 675161026

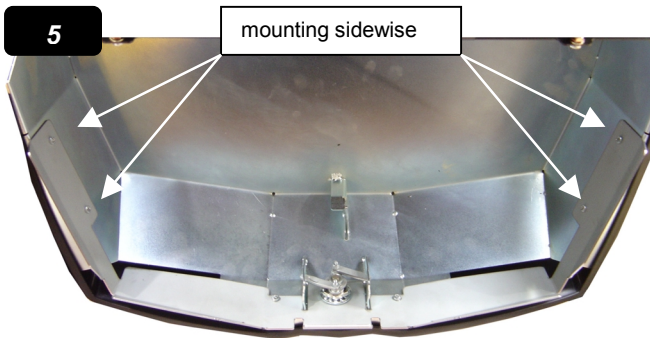

Dismount the locking mechanism and mount the security-metal under the lock.

Near the lock mount with screws the security-metal .

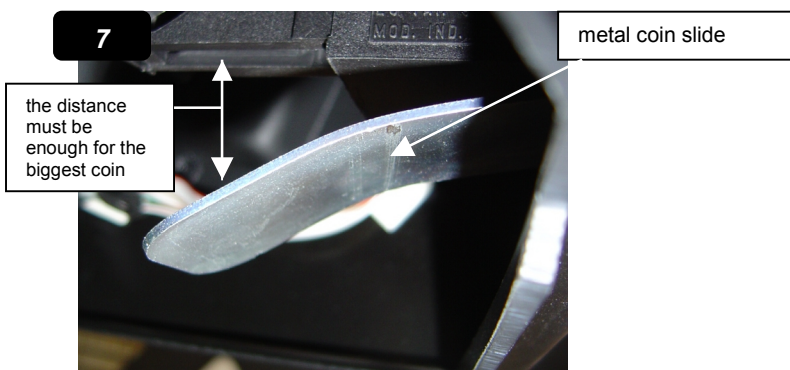

Before you mount the security-metal sidwise, Be careful, that there is enough distance between cash-metal and security-metal. Otherwise the cashbox don't match. Open and close the cash door to define the right distance.

Now you can mount the security-metal sidewise

The security-metal goes under the plastics by closing the cash door.

Form the coin-metal upward otherwise the coins get stuck.

If there are any questions please contact our hotline.
